About me

I specialize in User Interface Development. As a front-end engineer, I am skilled at implementing new features, improving website performance, UI Maintenance and developing responsive layouts. I am also competent in back-end technologies employing NodeJS.

I am looking for roles that are heavy on front-end development while I am also willing to take on roles that will in addition to UI development, also provide me an opportunity to work on the back-end.

Education

2006-2010   Bachelor of Technology in Information Technology
Jawaharlal Nehru Technological University, Hyderabad

Experience

2018   Publicis Sapient
- I currently work here and I am leading the UI efforts for my team.
- I develop and maintain the web presence for davidsbridal.com
- I am responsible for setting up front-end frameworks for new assignments, fixing UI bugs on the current website, migration tasks for new platforms, web analytics, code reviews, developing responsive layouts, feature enhancements, and test automation.
- I was instrumental in improving the front-end performance by 60 percent for their Product Listing Pages.

Tech-Stack: React, Redux, Sagas, ES7, Grunt, Gulp, SASS, LESS, HTML5, CSS3, Knockout JS, NodeJS, Express, jQuery, AEM.

2015-2018   Ness Technologies:
- As a senior front-end developer for my team (CDK Global), I worked on feature enhancements of existing tools, maintenance of consumer-facing websites, Web analytics, developing responsive layouts and, migration tasks.
- I was tasked with redesigning and redeveloping existing tools to address all the UI pain points and also leading the team to migrate onto a different platform. I was also designing and implementing in-house tools to improve developer productivity.

Awards: SPOT Award, Runner up - MyIdea Contest
Tech-Stack: ES6, OOJS, HTML5, CSS3, Grunt, Less, jQuery

2010-2013   Infosys Ltd:
- I worked as a front-end developer for Vodafone (UK) team.
- I created dynamic content for their e-commerce website, worked on styling for creating responsive layouts and resolving performance issues.
- My time at Infosys laid the foundation for my professional career and a strong work ethic.

Tech-Stack: HTML5, CSS3, JavaScript

Awards and Fellowships

2010   Gold Medal in Academics, JNTU (B.I.E.T)
2013-2015   Teach For India Fellowship
